

International Chapter Events

The Computer Measurement Group has some excellent affiliate groups in several countries around the world. Attending one of their events is a great way to keep up with what is happening in the profession and to meet your fellow capacity planners/performance analysts. Listed below are the currently known events occurring in 2014. If you live near these locations, or are visiting, drop by the event. We know that the group will be happy to see you.

The group's name is a hyperlink to their web site. Please visit the web site for more information and updates.
