

## **North American Regional Events**

Going to a CMG regional event is a great way to keep up with what is happening in the profession and to meet your fellow capacity planners/performance analysts at a reasonable cost. Below are the currently known events occurring in 2014. If you live near one of these regions, or happen to be in the area, drop by the meeting. I know they'll be happy to see you.

The group's name is a hyperlink to the regional web site. Please check out that site for more information and agendas.
