

Performance and Capacity 2014

2014 Annual Conference Information

The 2014 Conference Committee would like you to 'save the date' for the 40th Annual International CMG Conference to be held at Georgia Tech Hotel and Conference Center in Atlanta, GA. Dates are Monday through Thursday, **November 3-6, 2014**.

CMG has issued the [Call for Papers](https://www.cmg.org/wp-content/uploads/2014/02/CMG-2014-Call-for-Papers.pdf) (or cut/paste <https://www.cmg.org/wp-content/uploads/2014/02/CMG-2014-Call-for-Papers.pdf>). The Call for Workshops will be announced shortly. Do consider submitting a paper, especially from a user perspective. If **mentoring** is desired, we can assist with that: Detailed information is available at <http://www.cmg.org/conferences/speakers-resources/mentor-information/>.

We will need **volunteers** in the June/July timeframe to blind-referee submitted papers. You do not need to be a CMG member to become a referee, and we truly appreciate volunteers who step up to review about 3-4 papers each. If you would like to participate as a referee, please go to the volunteer form at [Volunteer HERE](http://www.cmg.org/conferences/volunteer/) (or cut/paste <http://www.cmg.org/conferences/volunteer/> into your browser).

Look for more Conference details in an upcoming e-mail announcement!
